Over Thirty Years Without Sickness.

Mr. H. WETTSTEIN, a well-known, enterprising citizen of Byron, Ill., writes: "Before I paid much attention to regulating the bowels, I hardly knew a well day; but since I

learned the evil results of constipation, and the efficacy of

Pills, I have not had one day's sickness

- not one attack that did not readily yield to this remedy. My wife had been, previous to our marriage, an invalid for years. She had a prejudice against cathartics, but as soon as she began to use Ayer's Pills her health was restored."

FOR DULL TRADE

John Wanamaker Says:

"I do the heaviest advertising in dull times.

"Then it is when people look most keenly for bargains and are anxious to know what things cost, and where they can save money. I advertise particular things, give prices, and take as much pains with my announcement as I do with my stock. One big dinner wont keep up the reputation of the big house-but steady, good cooking does it. I never permit interest in my announcements to lag, and never miss an issue in my chosen publications. Advertising has made my store one of the largest in the country."

Local coal men are now able to make an estimate, accurate enough for all practical purposes, of the amount of coal that will come down on the present rise of the river.

It is the story of a frugal German of the type who keep small saloons in the district where sanded floors and plain bars abound. His name was Jacob Miller, and, not unlike many of his countrymen after being in New York four or five years, had managed not only to keep a horde of children well dressed and in school, but to accumulate a small sum of money. He feared thieves would find his little hoard, which he kept snugly stowed away in a stocking in the bottom. of his emigrant trunk, and so he determined to open a bank account.
